

## One-step botanical cleaning and disinfection

Concrobium Broad Spectrum Disinfectant II represents the next generation of plant-based disinfection for professional restoration contractors. The unique, proprietary solution is botanically-derived and offers significant advantages over existing botanical solutions on the market. Unlike other products, Concrobium Broad Spectrum Disinfectant II provides superior cleaning so users don't have to resort to two separate products for disinfection and cleaning. And contractors and their customers won't have to contend with the irritating, lingering fumes that are associated with first-generation botanical formulas.

With Concrobium Broad Spectrum Disinfectant II, pros can count on an EPA-registered bactericide, virucide, tuberculocide and fungicide that contains no harmful chemicals. The solution has no warning labels and requires no PPE.

\*Concrobium Broad Spectrum Disinfectant has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, Concrobium Broad Spectrum Disinfectant can be used against SARS-CoV-2 when used in accordance with the directions for use against Feline calicivirus on hard, non-porous surfaces. Refer to the CDS website at <https://www.cdc.gov/coronavirus/2019-ncov/index.html> for additional information.

### Recommended Uses

Concrobium® Broad Spectrum Disinfectant II can be used in hospitals, nursing homes, nurseries, medical offices, schools, military installations, athletic facilities, public areas, ambulances, institutional kitchens, cafeterias, restaurants, public restrooms, hotels and motels, garbage and refuse centers, shower and bath areas, zoos, prisons, HVAC and R equipment, dental offices, emergency areas, healthcare facilities, hospitals, intensive care, operating rooms, residential, restaurants, dental operatories, by police and EMS, and residential.

### Ideal for

- Disinfecting hard, non-porous surfaces
- General, cleaning and maintenance
- Odor control

### California Ingredient Disclosure

EPA Registration Number 34810-25

CAS Number	Ingredient Name for Website	Function
7732-18-5	Water	Solvent
89-83-8	Thymol	Active ingredient
77-92-9	Citric Acid	Buffer
112-05-0	Pelargonic Acid	Acidifier

139-96-8	TEA-Lauryl sulfate	Surfactant
68037-05-8	Ammonium C6-10-alkyl polyoxyethylene sulfate	Surfactant
107-41-5	Hexylene Glycol	Solvent
67-63-0	Isopropanol*	Solvent
not available	Fragrance	fragrance

\*Chemical with noncancer endpoint and listed with an inhalation or oral reference exposure level by OEHHA

#### BENEFITS:

- EPA-registered bactericide, virucide, tuberculocide and fungicide
- Botanically-derived formula
- One-step hospital grade disinfection and cleaning
- No ammonias, chlorines or glutaraldehydes
- No harsh or lingering fumes
- Ready to use – no mixing required
- **COVID-19 (coronavirus disease) is caused by the SARS-CoV-2 virus. Concrobium Broad Spectrum Disinfectant kills similar viruses and therefore can be used against SARS-CoV-2 when used in accordance with the directions for use against Feline calicivirus on hard, non-porous surfaces. Refer to the [CDC website](#) for additional information.**
